

Today it's all about...

# CHOCOLATE!

## Delicate (ruby) chocolate

While today everybody thinks about love, we think about our love for chocolate! Even more, about the newly discovered ruby chocolate.

Eighty years after the launch of white chocolate as the third type after dark and milk, the fourth type in chocolate "ruby" was introduced.

Thanks to a special processing of the ruby cacao bean, the typical flavor and color tone naturally present in the cacao bean can be preserved. Ruby chocolate offers an intense sensorial delight: A tension between berry-fruitiness and luscious smoothness.

Why shouldn't we create fragrances around something so sweet and delicious as chocolate? Scents that gives us an instant happy feeling! Let us indulge you in these 3 new scents inspired by ruby chocolate...

### 339459 – RUBY CHOCOLATE
